

SEXUAL & REPRODUCTIVE HEALTH COMPLEX SERVICE

The SRH Complex Service based within Sandyford Central provides advice, information and treatment regarding complex SRH and contraceptive problems.

This service is for clients living within the NHS GGC health board area only.

Services

Clinics are available Monday to Friday morning on ground floor of Sandyford Central. The SRH team will be available for advice if required from the Urgent Care clinic, but in general the SRH Doctor of the Day consultant will be available every morning and afternoon.

Young people under 18 can also be referred to the Place Specialist clinic

Clients attending our other clinics e.g. Urgent Care, and have a gynaecological issue but live outwith GGC can be referred to their local services or asked to return to their GP for this referral

Staffing

Sessions are staffed by SRH consultants, trainees and specialty doctors:

Reasons for Referral Include

- Clients with complex contraception needs
- Medical gynaecology issues e.g. severe PMS, severe menorrhagia, genital skin problems
- Deep implant removals should be referred to the deep implant clinic in Sandyford

All referrals are vetted by SRH consultants daily and appointed as appropriate

Documentation

- Visit is recorded electronically in NaSH.
- If permission given then referring clinician and client's GP are informed of referral and outcome.
